## Product Description

- Spring rate and damping force has been updated for a more comfortable ride quality.
- Front pillow ball upper mount allows adjustments to be made to the camber angle.
- By changing the damping force, the suspensions can handle different situation from the street to the circuit.
- SUSPENSION WARNING CANCELLER specifically for the Type R is included.  
 ※The canceller makes sure an error will not show for the variable damper system.  
 ※This does not complete remove the error inside the variable damper control unit.
- By installing the Optional DSC PLUS, the damping force can be adjusted from inside the vehicle.  
 Additionally, G sensor and speed can be inputted for automated changes to the damping force.
